DETAILED ACTION

1. The amendment filed on May 31, 2006 has been entered. Accordingly, claims 1, 3-6 and 8-10 have been canceled.

Allowable Subject Matter

2. Claims 2 and 7 are allowed.

The prior art of record, including Zou et al. ('942 B1) and Swarens ('836) does not show or suggest the applicant's invention as claimed. Specifically, the prior art of record does not disclose a lamp for a scanning device combining:

- a light-refractive tube of variable thickness surrounding a linear lamp; and the tube including its two ends having thickness larger than the thickness of its central part as recited in Claim 2.

The combination of the features, including a light-refractive tube encasing the lamp; and the tube having wall thinner in the central portion thickness, makes this disclosure unique.

Neither combined nor individual teaching of Zou et al. ('942 B1) and Swarens ('836) discloses the above-indicated a tube surrounding a linear lamp, and further having its wall of variable thickness as detailed above. Therefore, the amended Claim 2 includes allowable subject matter.

Therefore, Claim 2 is allowed over prior art of the record.

Claim 7 is necessarily allowed because of its dependency on the allowed base claim 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
